

You Lucky Dog!

March celebrates the luck of the Irish with a St. Patrick's Day theme and some lucky challenges! Complete the requirements via video to earn a title certificate and shamrock-themed title charm (price is \$20, shipping included in continental US only). Please remember to show the entire exercise from start (before interacting with the obstacle) to finish (after interacting with the obstacle) and ensure at least your hands are visible in the video. Open through April 30th.

1. **Four Feet On** a **green** object elbow height or higher for 5 seconds.
2. **Under** then **Over** a **green** object.
3. **Command Discrimination** – Pick three different from the following exercises and perform them on a single obstacle in succession; no height, length, or width rules apply. No more than two commands per exercise are allowed and must be one unedited video sequence. Choose from: Two Feet On, Four Feet On, Under, Around (one direction), Through, Balance, In, and Over.
4. **Straddle** – Dog places front two feet on one obstacle and back two feet on another obstacle for at least 3 seconds. Obstacles must be approximately the same height, at least wrist height, and placed at least one-half the dog's body length apart.
5. **2 Feet On** a moving ball or other round object for 3 seconds. The ball may be semi-stabilized in a base so it doesn't roll away, but it still must move under the dog's weight.
6. **Narrow Through** – Dog must pass between two obstacles at least 1.5 body lengths long that are no wider than 1.5 times the dog's shoulder width apart. Dog must pass completely through without hesitating or turning around.
7. **Two Feet On Sideways Walking (Both Directions)** – Dog puts two front feet on an obstacle at least wrist height and moves sideways with two back feet on the ground for at least four steps, then reverses and does the same in the opposite direction. Dog must complete each direction in one attempt without stepping off but they may be done separately.
8. **Lucky Creativity** – Perform three behaviors on a single new **green** obstacle according to the following: Roll a single dice three times to choose your dog's behaviors. 1 = Two Feet On, 2 = Four Feet On, 3 = Around (one direction), 4 = Under, 5 = In, 6 = Over. No height/width/length restrictions apply.
9. **Lucky Sequencing** – Perform three behaviors on three new obstacles in a row, at least one of which must be **green**, according to the following: Roll a single dice three times to choose your dog's behaviors. 1 = Two Feet On, 2 = Four Feet On, 3 = Around (one direction), 4 = Under, 5 = In, 6 = Over. No height/width/length restrictions apply.
10. **Around (Both Directions)** – Starting near either of the handler's sides, the dog must travel at least **three** body lengths away and make a 180-degree turn around a **green** object in either

direction before returning to the handler. This must be completed in both clockwise and counterclockwise directions, but can be done at separate times and edited into one sequence.

11. **Four Feet on a Small Obstacle** – Dog places all four feet on an obstacle where the width and length measure less than the dog's body length for at least 5 seconds. Bonus if the obstacle is **green**.
12. **Two Feet on a Vertical Surface** – Dog places two front feet on a vertical surface such as a wall and stays in position for at least 3 seconds.
13. **Bonus** – Take a picture of your pup(s) with **green** décor, bonus if it includes a **shamrock**.
